**Subject:** Door from reception into receiving

Kevin and Roger,

During design Sharon and Jim told me there needed to be a borrowed light in the door from reception into receiving. It did not make it into the CD's . My fault. This door is getting black board hardware. Can we please run the wire so a light can be installed? Either across the top and down or down the hinge side and across to the mortise. We do need the light and will have to buy a kit.

Thanks,

Stephen
